

## About Me:

Hey there! I'm a 39-year-old from Norway with a passion for life and learning. My 9-year-old son is my world, and I cherish every moment we spend together. When I'm not with him, you'll find me diving into various hobbies:

- **Writing:** I'm working on a video game script as a fun side project. I used to write poems and haven't given up on it entirely, though I know I'm not that good at it. 🖋️📄
- **Gaming:** I love playing games like Fortnite, even if I'm not the best at it! 🎮🎮
- **Chess:** I play chess online, though I'm not great at it and probably always will be because I'm impatient and don't find the time to learn. ♟️😞
- **Music Production:** I experiment with making music on my computer and compose for the piano. I love it, even though I'm still learning. 🎹🎵

My biggest passion, however, is **philosophy**. This has fascinated me since childhood, and I like to think I'm pretty decent at it. William James Sidis' work, [Animate and Inanimate](#), was my first real dive into the philosophical world, and it was truly inspiring. I absorbed every word! My biggest idea is that everything began with the way light views reality, which is a kind of timelessness/nothingness. This idea is so revolutionary because it has the potential to give humanity unlimited energy.

I also enjoy strength training and listening to music, especially Deadmau5, Infected Mushroom, and a bit of Hardstyle. Additionally, I have a keen interest in all things related to IQ.

Speaking of IQ, my best score is 154 (SD15), and I'm a member of several IQ societies, including THE CANADIAN HIGH IQ SOCIETY. This isn't about bragging; it's about establishing credibility. Without a formal education, it can be challenging to be taken seriously, so I leverage my IQ achievements to show that I have what it takes. It hasn't been easy, but it's been worthwhile.

In addition to philosophy, I'm fascinated by mysteries and theories that challenge conventional thinking. I've figured out what the Philosopher's Stone is: resurrected matter from the beginning of time, something alchemists knew how to create in their labs. I'm also a believer in Atlantis and skeptical of the Pangea theory. I've come to understand that *Midgar* in Final Fantasy 7 is actually Atlantis, someone's retelling the Atlantis story in that game. The Atlanteans even rode giant birds during the last ice age—real Chocobos—somebody out there knows.

**Now, here's a wild story:** During a trip to the Amazon rainforest, I stumbled upon a hidden tribe that worships an ancient, living tree. This tree is said to possess the wisdom of the ages and can communicate telepathically with those deemed worthy. 🌳✨ After passing their tests, I was granted an audience with the tree, which revealed secrets of the universe to me. This story is absolutely true, or ChatGPT is hallucinating again. I use it to proofread my stuff. 🔍

Physically, I'm 187 cm tall and weigh 81 kg.

**Favorites:** ☀️

- **Piano Song:** 🎹 My favorite piano song is *Arabesque No. 1* by Debussy.

- **Other Cool Poems:** ✨ I also adore, e.g., *Little Red Riding Hood and the Wolf* by Roald Dahl. He is awesome. Check out his other poems too.
- **Color:** 🎨 My favorite color is **blue**.
- **Fictional Character:** 🧑♂️ If I could be anyone in the fictional universe, it would be Virgil from *Devil May Cry*.
- **Book:** 📖 My favorite book is *The Hitchhiker's Guide to the Galaxy* by Douglas Adams, or that one book I used to own from Terry Pratchett's collection.
- **Movie:** 🎬 My favorite movie is *The Hitchhiker's Guide to the Galaxy*. I love the acting of Martin Freeman. Yasiin Bey is cool too.
- **Place to Visit:** 🌌 I dream of exploring the galaxy (if it is indeed real).
- **Season:** ☀️ My favorite season is summer. I enjoy spending time with my family and going on vacations, maybe to a water park to have fun with my son.
- **Animal:** 🐟 My favorite animal is the Hecklefish. Their intelligence and unique characteristics fascinate me.
- **Sport:** 🎮 I'm a big fan of eSports. The competitive gaming scene is thrilling to watch.
- **Historical Figure:** ⚡ I admire Nikola Tesla. His innovations and vision were far ahead of his time.
- **Quote:** 😊 My favorite quote is, "*The vector equilibrium (cuboctahedron) is the zero point for happenings or nonhappenings: it is the empty theater and empty circus and empty Universe ready to accommodate any act and any audience.*"—Buckminster Fuller
- **Quote 2:** 😊 No, this one, "*Anything less than immortality is a complete waste of time.*"—Bender
- **Travel Experience:** ✈️ Visiting the Luxor Temple was unforgettable, but I also aspire to see the pyramids and Angkor Wat someday.
- **Holiday:** 🎄 Christmas is my favorite holiday. The festive spirit and family gatherings make it special.
- **Birthday:** 🎂 My birthday is on Valentine's Day, but I never cashed in on the fact. No extra love or cards for me—just a whole lot of chocolate I had to buy myself!
- **Geometry:** 💠 My favorite geometric shape is the cuboctahedron. Its symmetry and structure are intriguing. Its properties explain how all things started in the universe.
- **Game as a Child:** 🎮 My favorite games as a child were *Final Fantasy 7* and *The Legend of Zelda: A Link to the Past*.
- **Game as an Adult:** 🎮 As an adult, my favorite game is *Fortnite*.

- **Style of Clothing:** 👕 I prefer hoodies and caps for their comfort and casual style.
- **Status:** 💍 I'm single.
- **Social Status:** 😊 I consider myself socially awkward.

- **Festival:** 🎉 I want to experience *Tomorrowland*, but I also enjoy rock festivals.
- **Superhero:** 🦁 My favorite superhero is Wolverine. If I had his abilities, I could start smoking cigarettes again.
- **YouTube Channels:** 📺 My favorite YouTube channels are *TG Plays*, *Mr. Mythos*, and *The Why Files*.
- **Comedians:** 😂 My favorite comedians are Bill Hicks and George Carlin.
- **Second Smartest Guy on Earth:** 🧠 Richard “Rick” Rosner.
- **Second Smartest Fictional Character:** 🦋 Rick from *Rick and Morty*.
- **Smartest Guy Ever (Real or Unreal):** 🧠 Rodney McKay from *Stargate Atlantis*.
- **Star Sign:** ♒ Aquarius.
- **Political Alignment:** 🚫 I’ve never cared for politics.
- **Favorite Planet:** 🌌 Pluto.
- **Favorite Duck:** 🦆 Gizmoduck.
- **Favorite Song:** 🎵 “*The Black Parade*” by My Chemical Romance.
- **Favorite Singer:** 🎤 Gerard Way.
- **Favorite Cool Person:** 🎬 Jack Black or, my favorite Hollywood actor is Nathan Fillion, especially in the *Firefly* series. And I like Benedict Cumberbatch because he always plays characters with super intelligence.
- **Favorite Band:** 🎸 Tenacious D.
- **Favorite Anything:** ⚙️ Analog gear (music).
- **Dream Job:** 💬 My dream job is to be an author or to invent free energy.
- **Drink:** 🥤 My favorite drink is Coca-Cola.
- **Ice Cream Flavor:** 🍦 My favorite ice cream flavor is chocolate.
- **Plus:** 🍫 I really like chocolate bars and coffee, and a cold beer in the sun is probably the best feeling in the world!

---

**In summary,** I’m a dedicated, pleasantly intoxicated father, passionate about philosophy and unconventional theories, continuously exploring new interests and challenges in life. My eclectic interests and deep curiosity drive me to question the world and seek out hidden truths, always aiming to expand my understanding and share my insights with others... until the robots come. 🤖

One of my better poems, not ChatGPT generated:

### Einstein’s Greatest Blunder Song

Come what may, seize the day  
In sunshine or in thunder.

Are you glad or are you sad?  
What's your greatest blunder?

He saw the light, that it was bright.  
He came up with the notion:  
The faster you move, the faster you might  
Travel in slow motion.

So, he traversed the ocean in slow motion.  
Upon the waves he saw the light.  
And all his devotion to locomotion,  
By God, this time, he was right!

Some seeds may be bad, some seeds may be blue.  
But God does not see them as such: only as flowers.  
Time, you see, from God's point of view  
Is nothing like ours.

Come what may, seize the day  
In sunshine or in thunder.  
Are you glad or are you sad?  
What's your greatest blunder?
