

As an experimental high-range IQ project, GIGA Society™ is an extremely high IQ society for the certified highest IQ people who scored at or above IQ 190 (SD 15) on an acceptable high-range IQ test, in partnership with World Mind Sports Council & World Memory Championships founded by Tony Buzan, the inventor of Mind Maps. GIGA Society™ was founded by **The Brain Trust** registered in 1989 as a nonprofit organization in the United Kingdom.

GIGA Society™ has a total of nine members worldwide, including individuals from Asia, Europe, and America. Their diverse professional backgrounds include MIT graduates and university professors.

◆ GIGA MEMBERS

- DR. CHRISTOPHER HARDING (AUSTRALIA)

■ Warning: Here is the official GIGA Society™ for the certified highest IQ people who scored at or above IQ 190 (SD 15) on an acceptable high range IQ test. However, there is another giga-level group which accepts unprofessional uncensored tests authored by the group's founder who is not properly disciplined academically.
