## GIGA SOCIETY, THE WORLD'S MOST EXCLUSIVE HIGH I.Q. SOCIETY

Posted on October 1, 2021

United Giga Society is the most exclusive high range IQ society for those who scored IQ 190 SD15 on the high range IQ test.

Intelligence has been a controversial topic throughout psychology's history. Despite the substantial interest in the subject, there is still considerable disagreement about what components makeup intelligence. In addition to questions of exactly how to define intelligence, the debate continues today about whether accurate measurements are even possible.

Main goal of the United Giga Society is to further the establishment of mental ability test norms in the very high range.

Intelligence has been a controversial topic throughout psychology's history. Despite the substantial interest in the subject, there is still considerable disagreement about what components makeup intelligence. In addition to questions of exactly how to define intelligence, the debate continues today about whether accurate measurements are even possible.

However, membership of the United Giga Society is open to anyone outscoring .999999999 of the adult population on at least one of the accepted tests. This means that in one in a billion individuals can qualify.

Qualifications to join is 1) High Range IQ test score  $\geq$  IQ 190 SD15, and 2) High Range IQ Society membership  $\geq$  IQ 190 SD15. There is only full membership at the United Giga Society and Membership is free of charge.

It has been known to occur that social media "groups" started by impostors made unauthorized use of the name "Giga Society" or some variant or misspelling thereof.

Such groups are not affiliated with the United Giga Society, and membership in them under no circumstance entitles one to call oneself a member of the United Giga Society.
